The new to the market Euro Metro™ range redefines metropolitan paving and streetscapes.

The Euro Metro™ range is ideal for large scale paving projects in areas of high pedestrian traffic.

The Euro Metro™ paving range includes five contemporary colours. The flexibility that such a range provides ensures the confidence to specify the Euro Metro™ paving range into any civil paving project knowing that these durable pavers will provide an aesthetically pleasing appeal to metropolitan streetscapes.

The Euro Metro™ range comes in a honed and shotblasted textured finish, exposing the natural aggregate used in these long lasting pavers. This is a made to order product ensuring your needs are met specifically to the projects requirements.

Product Specifications

Materials	Average No. Per m ²	Unsealed slip resistance	Potential to effloresce
