

New Naturals

New Naturals

Inspired by the fresh, subtle shades and pure colours of nature - lush rainforests, ancient riverbeds and distant mountains. New Naturals create a home in harmony with the world around you.

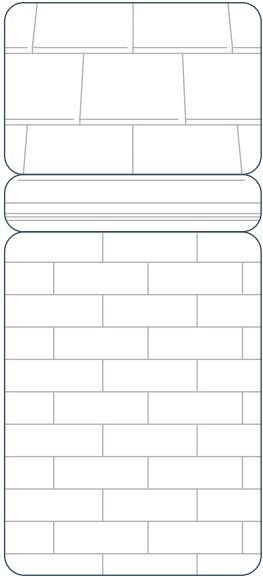

Neutral brick colours with strong environmental overtones. Choose New Naturals to build a home in harmony with the world around you.

	Scheme No.1	Scheme No.2	Scheme No.3

Colour your home with New Naturals

Our colour experts and professionals have done the hard work and created three stunning and timeless schemes within New Naturals that will ultimately make your choice easier. The featured schemes provide a starting point to help you on your way. Each one is made up of **60%** brick, **30%** roof tile and **10%** trim, such as gutters, fascia, doors and window frames. This breakdown represents the proportions of your house that will be taken up by these elements.

You may select a scheme straight away that is exactly what you are after, or you may wish to take a scheme as a base and then try our suggested alternates as part of it. Use the blank schemes to the left to note your preferred choices.

Roof Tile 30%

Gutter Fascia 10%

Brick 60%
