

Silver Greys

BE SURE WITH **CSR**

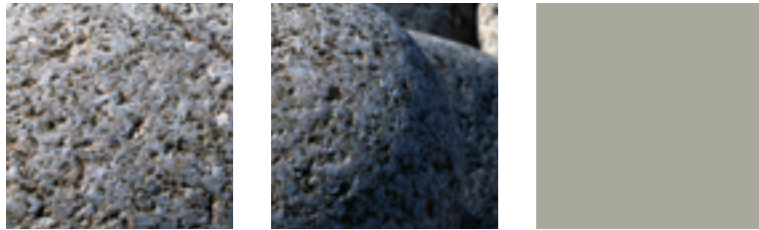

Silver Greys

Powerful, mysterious and modern. The shimmering colour of technology, glass and steel, rainy days, and nature's fury. Create a home of innovation and distinction that is dignified, deliberate, powerful and disciplined.

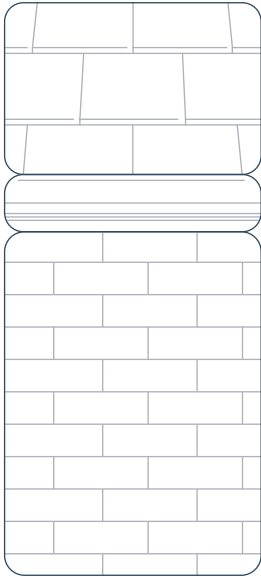

A versatile collection that gives new meaning to sophistication. Choose Silver Greys for a home of innovation and distinction that is dignified, deliberate, powerful and disciplined.

Colour your home with Silver Greys

Our colour experts and professionals have done the hard work and created three stunning and timeless schemes within Silver Greys that will ultimately make your choice easier. The featured schemes provide a starting point to help you on your way. Each one is made up of **60%** brick, **30%** roof tile and **10%** trim, such as gutters, fascia, doors and window frames. This breakdown represents the proportions of your house that will be taken up by these elements.

You may select a scheme straight away that is exactly what you are after, or you may wish to take a scheme as a base and then try our suggested alternates as part of it. Use the blank schemes to the left to note your preferred choices.

Roof Tile 30%

Gutter Fascia 10%

Brick 60%
